

## CAUTHE Fellows Report, Mid-Year Meeting 2023

The CAUTHE Fellows have been somewhat active since the 2023 conference in Fremantle. Fellows continue to provide notes to the CAUTHE newsletter and have been organised to do so well into 2024.

Two Fellows have flagged their intention to nominate individuals to be considered as new CAUTHE Fellows. Two nominations should be forthcoming in the next few months, with plenty of time to circulate them to the Fellows and gain your feedback and "vote" (yes or no). The idea would be to have this bedded down well before the AGM in February.

Several Fellows have indicated their intention to attend the 2024 CAUTHE conference in Tasmania. Fellows will be more than happy to contribute in various ways. It might be worth trying to schedule a Fellows gathering at the conference, as it is likely to be the final conference that a few outgoing Fellows will attend.

The search for a new Chair of the Fellows group continues as both Betty and I have indicated our desire to step down at the end of the year.

A number of Fellows are going to change their status from active to Emeritus, including:

- Marg Deery
- Leo Jago
- Elizabeth Roberts
- Betty Weiler

Prof Bob McKercher
